- 4. Text (Your name?), with the "Stroke" command applied. Click [here](#) for a video tutorial!**
- 5. A round, cropped photograph (Use elliptical marquee tool; "Shift" + "Option" and click and drag your circle) Click [here](#) for a video**
- 6. An image that you pulled from the web and have permission to use (check [www.Flickr.com](http://www.Flickr.com)), make sure it is Creative Commons!**

**You will be marked on how well you fit these objects together, and the absence of pixellation.**

**Pay special attention to cropping and the use of the levels command. If you wish to use special filters, feel free to do so. I would like you to save both a .psd file and a jpeg (.jpg)**

**This project will be out of 50 marks, and you will be marked on both your technical and aesthetic achievements.**
