

SHAPE + FORM

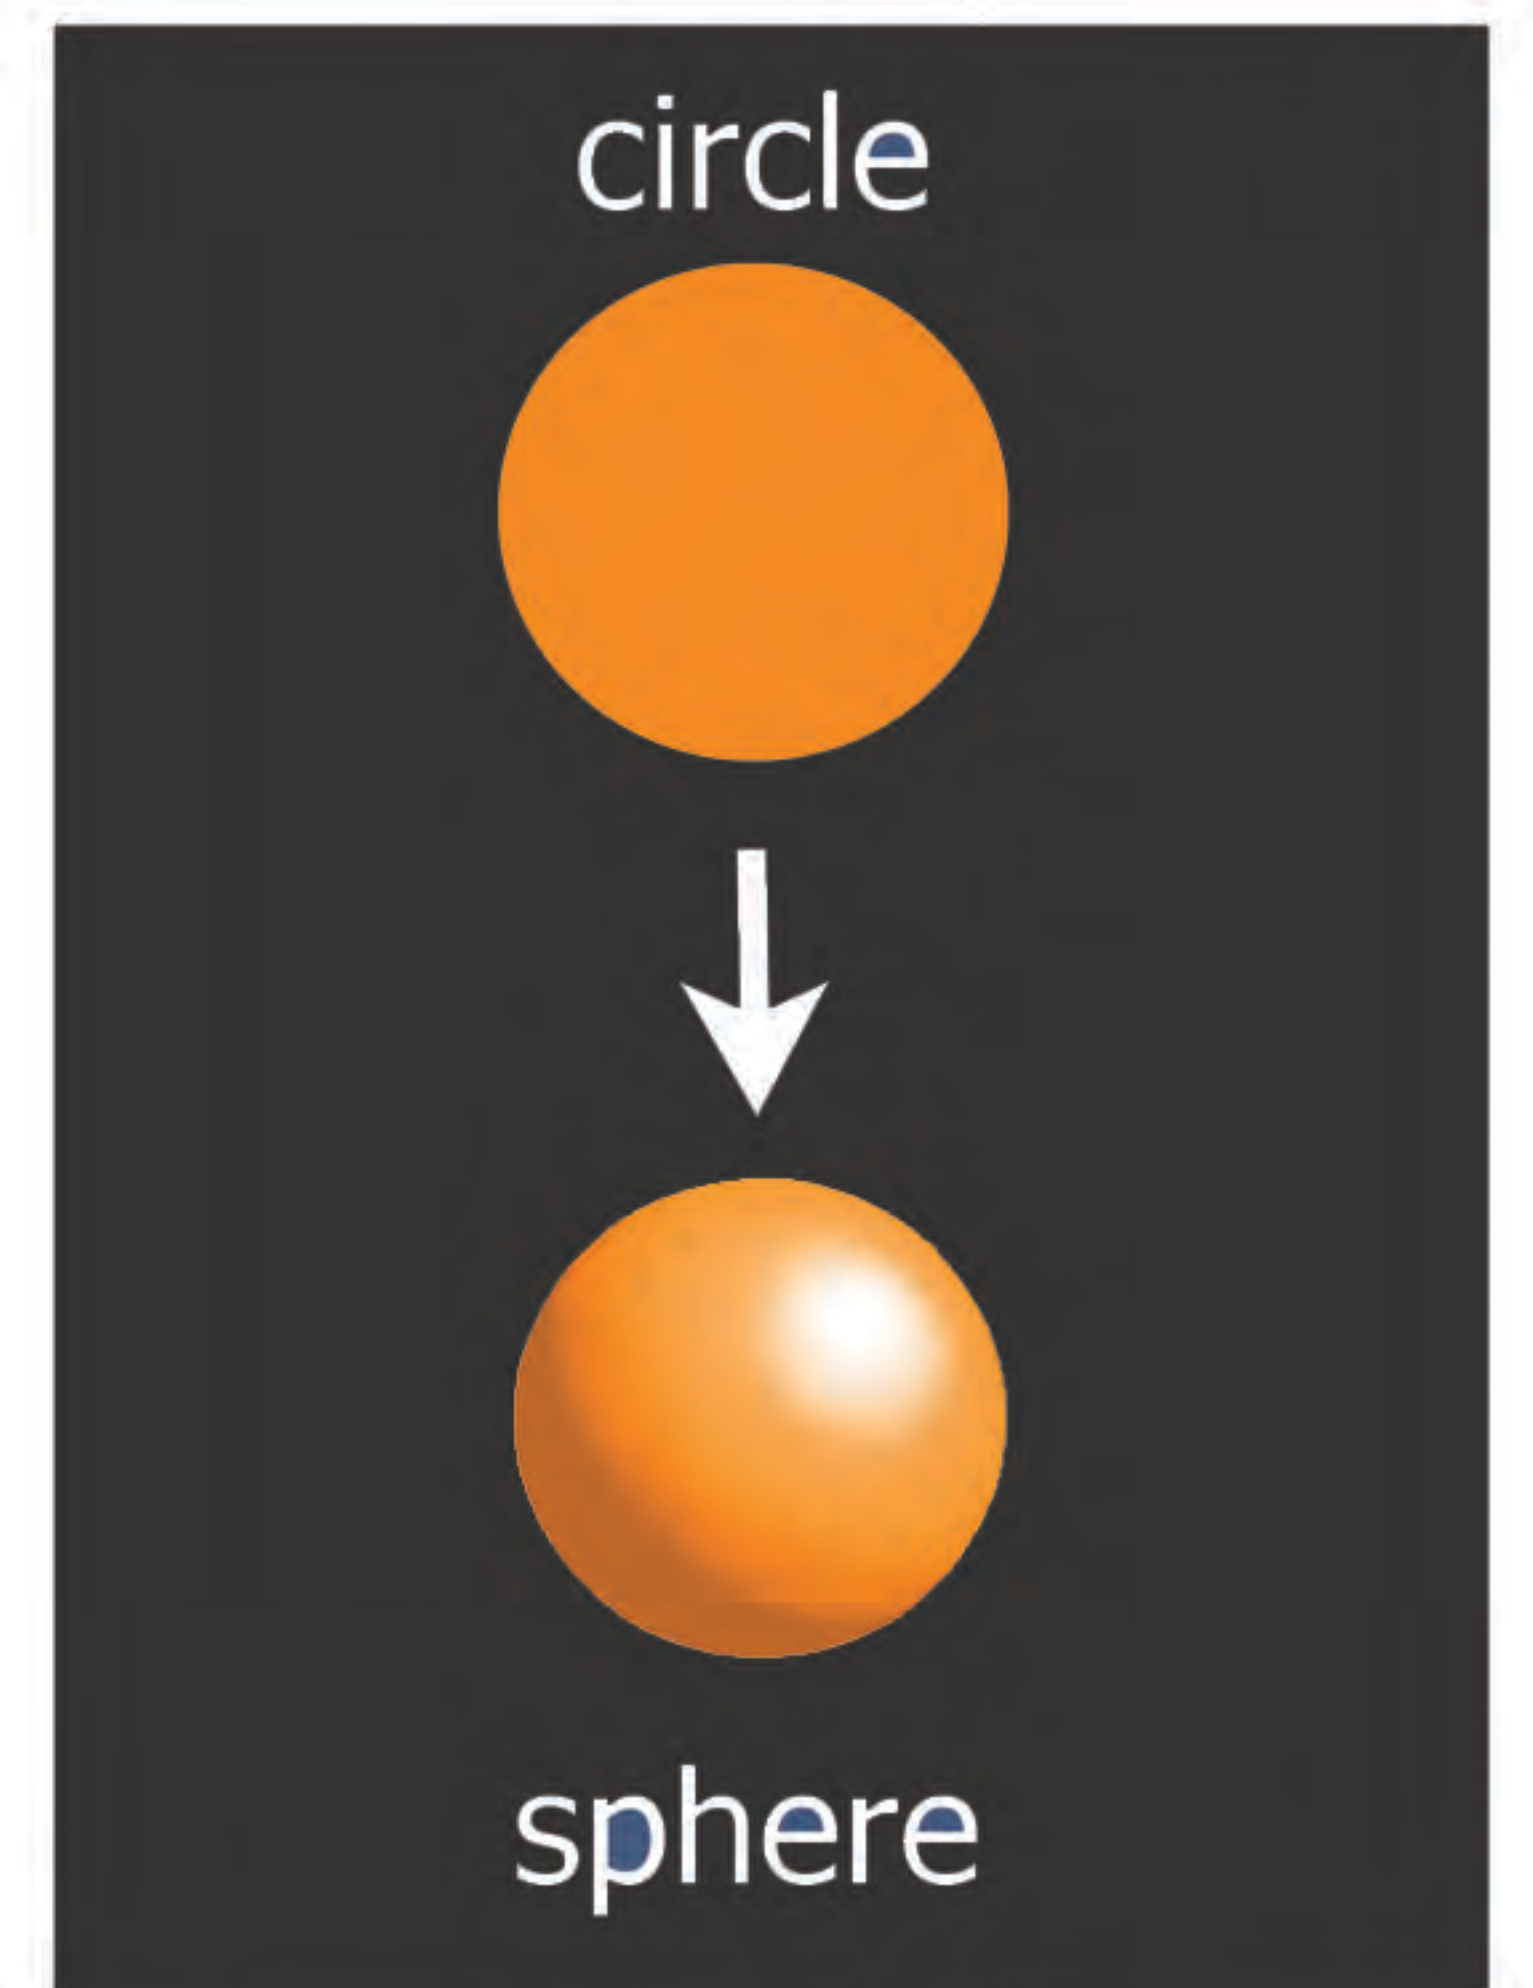

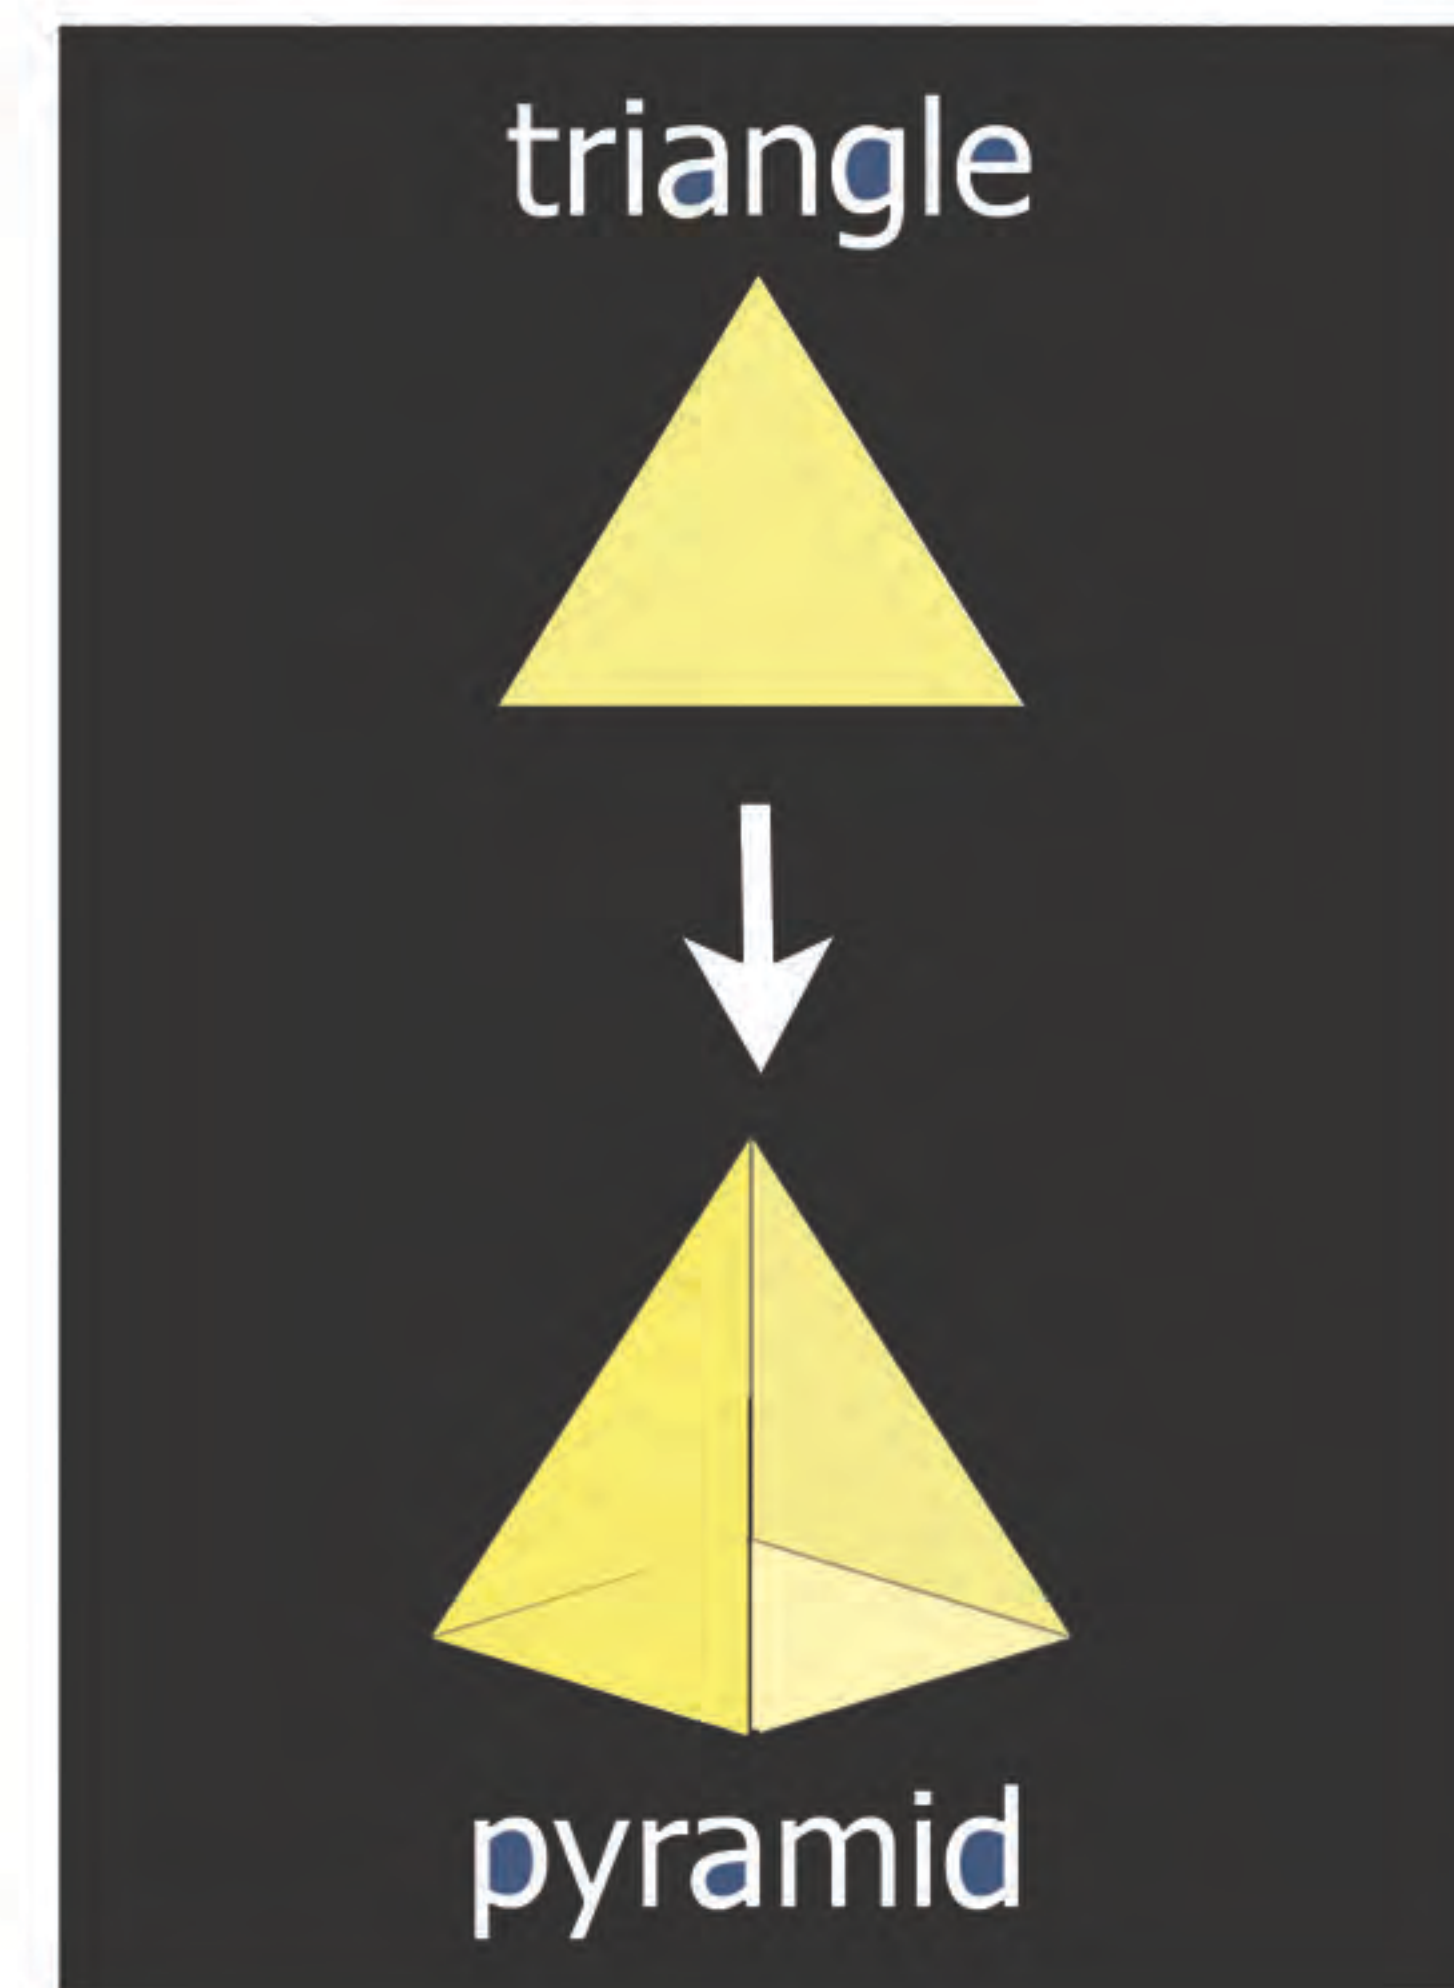

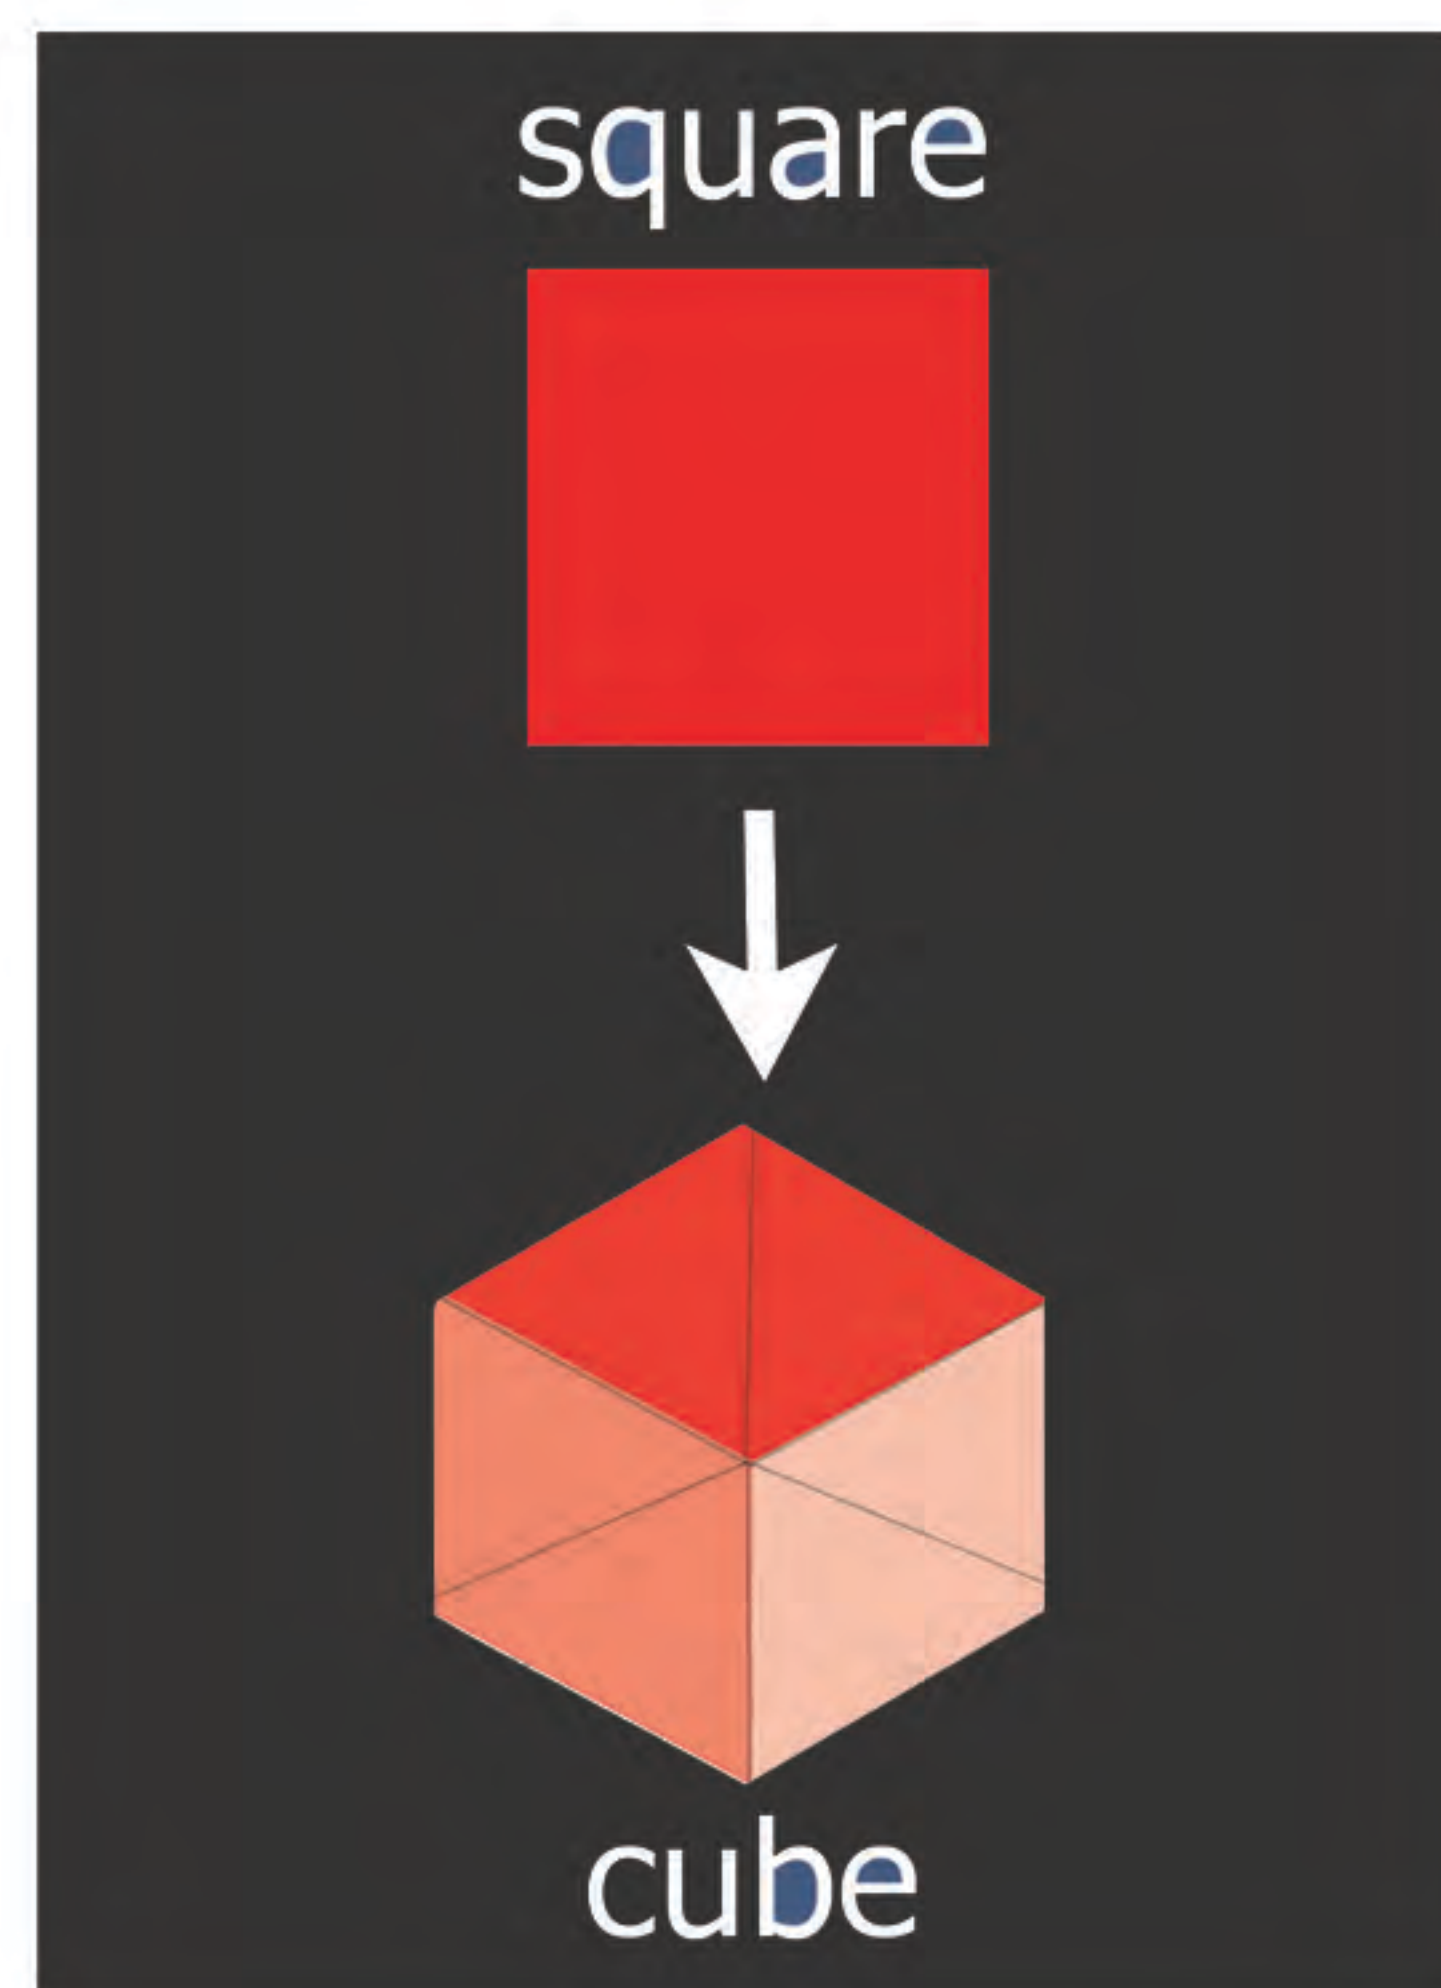

1. Shapes can be combined to create:

a) new shapes

b) symbols

c) 3D forms

Rectangles can be used to organize this design.

A box containing text is a simple and effective way to organize blocks of text. A black box containing white text is a very powerful way to unify your design and organize your text and make it 'say' "look at me!"

Rectangles can be used to organize this design.

A box containing text is a simple and effective way to organize blocks of text. A black box containing white text is a very powerful way to unify your design and organize your text and make it 'say' "look at me!" Notice how the text in this example is well separated from the title, which stands out.

2. Shape can also be used to contain or organize text
