Please consider the following in your review. You should directly (or indirectly) comment on the 7 points alluded to in this <u>article</u>:

- Be specific about what you liked and disliked about the film. Instead of writing "*Lambada* was dumb", explain *why* you thought it was "dumb". "Although aimed at an older audience, the director of *Lambada* (Boaz Davidson) thought that having his main character ride a Harley would be enough to cement his 'bad boy' image. It wasn't"
- Refer to actors and characters in the film by name. Who impeded the film, and who salvaged it?
- Do not give an exhaustive recap of the film; I am more interested in your personal interpretation.
- Who is this movie targeted towards, and why?
- Is this a film, or is this a movie?
- I strongly suggest drafting your review in Google Docs or MS Word, and then copying and pasting the body of text into your IMBD review just before posting. This will allow you to leave and return to your work.
