

## Magnum in Motion

What exactly is the Magnum Photography Agency? According to their website, “Magnum Photos is a photographic co-operative of great diversity and distinction owned by its photographer-members.”

The site further goes on to state that “when you picture an iconic image, but can't think who took it or where it can be found, it probably came from Magnum.”

You can read more about the founding [here](#).

I'd like you to visit [Magnum in Motion](#), where many of the photographers have created photographic essays that are accompanied by either music or narration.

I'd like you to watch at least 3 of these essays, and then write about the one that you liked most.

You will then answer the following questions and submit a PDF to the correct location.

1. What photographer and essay did you choose?
2. What about it in particular appealed to you?
3. Is this a style of photography that you would like to pursue?

I would then like you to go [here](#), and research the same photographer.

4. Screen shot your favourite photograph (command/shift/4) and paste it on the document you submit. Then describe what about it (both technically and subjectwise) appeals to you most.

Please spell check your document!
