

Gallery Project

For this project you will have to create your own gallery showing. Each senior will have to fill the frames outside room 206 with their own work. You are encourage to use any or multiple techniques you have learnt this year. They will have a opening for the class, and have their work up in the hallway for about 1 week.

You will have to print your photos to the correct sizes. You need to print out

- 2, A-3 sized photos
- 2, 8.5" by 11" sized photos
- 3, 5" by 7" sized photos

Click [HERE](#) for a video on how to use the Epson colour printer.

You will be marked on your photos, as well as how well your photos go together. You should have a theme or technique that ties all your photos together. For example, all your photos could be landscapes. Your gallery should also show/describe who you are as a photographer. You will be marked on how professional you handle this project, your photos (technical and subjective), your write up, and how coherent your photos are.

In addition to your 7 photos, you will have to do a write up explaining your gallery show and a little bit about yourself. This you will print on photo paper as well (Size 8.5" by 11").

	1	2	3	4	5
Technical (focus, blur, exposure, uneven horizon, and white balance)	There are problems with 4 or more of the criteria	There are problems with 3 of the criteria	There are problems with 2 of the criteria.	There are problems with 1 of the criteria.	The photos are technically perfect and have no errors.
Subjective	Your photos haven't taken the space into consideration.	The idea was there but not the follow through.	You can talk the talk but maybe not walk the walk.	Your photos are almost there...	You took your photos with the gallery space in mind.
Cohesiveness	There is no theme or idea tying your photos together.		The cohesiveness of your work is questionable and may need more explanation.		Your show is cohesive and has a main theme tying everything together.
Writeup (thoughtful, spelling, grammar, punctuation)	There are problems with 4 of the criteria	There are problems with 3 of the criteria	There are problems with 2 of the criteria.	There are problems with 1 of the criteria.	You utilized the frame to enhance your gallery.
Presentation (straight frames, clean glass, no gaps between photo and matte board, printed correctly)	There are problems with 4 or more of the criteria	There are problems with 3 of the criteria	There are problems with 2 of the criteria.	There are problems with 1 of the criteria.	The glass is clean, the frames are straight and you can tell you put in the work to make it look perfect.
