

India Ink Project

For this project, you will ideally be combining pen and ink with some areas that are brushed on ink.

- *The majority of your piece may be brush work, or it may be hatching and crosshatching.*
- *You will be working on paper given to you by your instructor.*
- *You may receive different styles of paper to experiment with before you begin your larger project.*
- *Sketch out your drawing with pencil, and apply the ink afterwards. If you are doing a wash, use the nib afterwards.*
- *You may combine your pen and ink with watercolour if you wish.*
- *You will be working from preliminary sketches that you have submitted to your instructor.*
