

# Truth and Reconciliation Project

For this project, you will be creating a watercolour painting based on the following question:

“How do you visually represent your understanding of Truth and Reconciliation? What are the truths that need to be acknowledged, and what are the actions that need to be taken towards reconciliation?”

There are numerous resources that you should look at to help influence your ideation.

[Here is one](#) curated at Seycove Secondary. Spend some time and explore the links on the page.

These are [Interviews](#) with former Residential school students and other videos of interest.

These are the [Calls to Action](#) from the Truth and Reconciliation tribunal. You could visually interpret what this action would look like in practice, or its outcome.
