

Space project

For this project, you will be given a sheet of 22x30" poster paper. On it, you will create a piece of art to show your understanding of one or more of the following:

1. 1 point perspective
2. 2 point perspective
3. Negative space

You are welcome to use any medium you choose.

If you are stuck for ideas, you may choose the default assignment based on the work of [Elena Renaudiere](#)

You can trace out your profile, and for the second face, find a friend (or do your profile on both sides.)

Have the lines for the face work in one- or two-point perspective.

In these lines, I encourage you to incorporate a hidden conversation ([using Morse Code!](#)), or dialogue between the two faces.

You could also have images drawn in the space that the profiles carve out.

Of course, you can also propose any project you wish to show your competency of the visual element Space.

Regardless, please show me a preliminary sketch or drawing to discuss what you will be creating.

Rubric:

	1	2	3	4
Ideation/ preparation (Sketches in Notebook, and discussion with teacher) Weight: 3	Not meeting expectations	Approaching expectations	Meeting expectations	Exceeds expectations
Artifact (thoughtful use of medium, thoughtful imagery/content) Weight: 5	Not meeting expectations	Approaching expectations	Meeting expectations	Exceeds expectations
Stewardship (organization and cleanup, conscientious use of materials, good use of class time) Weight: 2	Not meeting expectations	Approaching expectations	Meeting expectations	Exceeds expectations
