

Paper Collage Project

For this project, you will be given a sheet of paper approximately 11"x17".

You will be creating a collage that alludes to something else. This means that there is more to your collage than merely meets the eye.

You might do a collage on school life, political situations, a "portrait" of a friend, or you might create an image that simply is visually jawdropping.

Feel free to use pens, pencil, and other media to create this collage.

Adhere your magazine, or newspaper, clippings to the sheet of paper with a gluestick.

Try and use type if you like!

Bring any 2-D objects from home if you like to incorporate into your collage.
