Photo Essay

For this project, you will be combining images of a single event, topic, or subject with words that describe what the images can't, or to give them context. Think of this as akin to what you would see in a Life magazine.

The amount of text will vary from person to person. Some people will have a lot of words, others will let the images speak for themselves, but regardless, there does need to be a written aspect.

You may want to go to Vice Photos. To get a good idea of what is possible, but you by no means need to do your essay in this style.

You must edit your raw images and lay them out in your choice of software.
This could be, but is not limited to: Photoshop, MS Word, PowerPoint, or any of the Google clones of MS software.

Your project must be submitted as a .PDF file.
You may choose to use Colour or black and white images.
