

Raw File Project

1. Download the “Raw and JPG” folder from OneDrive
2. Open the NEF files in Adobe Camera Raw as shown in [this video](#) and edit them. Play around. **Do not click “Done” when you have finished editing them.**
3. This time, instead of clicking “Done”, select the save command in Adobe Camera raw. It looks like this:

4. [This video](#) will show you how to save your RAW images as jpps for submission. The process is also covered in the first video.
